Organizational Management

HumanConcepts Inc. has released the updated and streamlined organizational management tool OrgPlus 7. The new software release **focuses on several priorities for HR professionals and is designed to make the process of creating accurate and easy-to-use organizational charts easier.** The new software is designed to streamline and provide stronger support for analyzing, planning and communicating organizational structures. OrgPlus 7 includes powerful new features that allow HR professionals to better understand and communicate an organization's structure and to provide executives the tools and information they need to plan and implement workforce change.
